

Standard Certified Tenergy battery cell

Industrial Applications Marketing department

Long shelf life
Low self discharge
Wide temperature range

New Product 3.6V 1650mAh Lithium-thionyl Chloride 2/3 AA size Primary battery cell

item 30324-0

Technical Data

Chemistry: Lithium-thionyl Chloride
Nominal Voltage (V): 3.6V
Capacity (mAh): 1650mAh
Max Continuous Discharge Current: 35mA
Max Pulse capability: 75mA
Weight: 12g
Dimensions: 33.5mm x 14.5mm (LxD)
Model: ER14335
Avg. Temperature Ranges for:
Operating: -60~85°C
Storage: 30°C Max
Certifications: UL 1642, UN38.3, ISO 9001,
Compliant with IEC 60086-4 safety standard

Primary applications for
Radio communication equipments and other military electronics
Building alarms, monitoring and security systems
Industrial and residential metering systems
Emergency location transmitters and Beacons
Global POsitioning Systems (GPS)
Computer or server memory back up
LED lighting devices
Sonobuoys
Compatible with and replaces SAFT battery with over 40% more energy
