

New Battery Shape

Highest Level of Protection

Premium Protected Industrial Li-ion Rechargeable Coin Cell

Built-in internal protection board provides protection against overcharge, over discharge, overcurrent and short circuit. With the greatest safety standards for product integration and commercial use during normal and in case of fault conditions of your application.

For Your Product or Next Design. Easy Drop-in Integration

Network Security

Medical Devices

Internet of Things

Virtual Reality

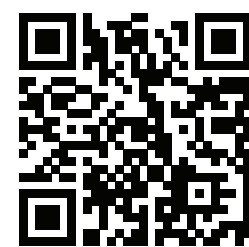

Artificial Intelligence

Industrial Applications

SPECIFICATIONS

Part Number	34294
Battery Type	Li-ion Polymer
Voltage	3V ~ 4.2V
Min. Capacity	60mAh
Max. Charging Current	1C
Max. Discharge Current	1C
Cycle Life	>400 (Fully charge and discharge)
Dimensions	Max. 12.5 x 5.8mm
Operating Temperature	Charging: 0 - 45°C Discharge: -20 - 60°C
Applications	Wearable devices, headset, etc.
